Nominations to Stakes.

TO THE RACING PUBLIC:—

This volume of "Nominations to Stakes" has been published to fill a void in the year's records made by the long-threatened, but at the last somewhat sudden suspension of "Krik's Guide to the Turf." The general prosperity of racing, the increased number of sweepstakes opened, and the largely increased list of declaration clauses not only renders the work far more necessary, but correspondingly heavier than in former years.

Horses are indexed according to the stake number, which appears in heavy figures, and not according to the page on which they are located. This plan has the manifest advantage of preventing more than one engagement being indicated by the same figure, and thus simplifies the index.

Declarations and other information received too late for classification in the body of this work are either recorded in the Index by foot notes, or in the "Addenda." The "April 15" declarations and additional entries of the Coney Island Jockey Club and Rockaway Steeplechase Association will be found in the "Addenda," page 225, but are not indexed.

To pay for its production, subscriptions have been diligently solicited from all to whom the work is valuable and necessary. Attention is called to the List of Subscribers, and of Bookmakers and Pool sellers, which represents those who both realize the need of the work, and are willing to contribute to its support.

In races of intermediate lengths the weights for the shorter distance are to be carried.

In all races exclusively for two-year-olds, weights shall be carried as follows: From January 1 to May 1, 105 lb.; from May 1 to December 31, 110 lb.

In all races exclusively for three year-olds, from January 1 to May 1, the weight shall be 110 lb.; from May 1 to December 31, 118 lb.

Except in handicaps, and in races where the weights are fixed absolutely in the conditions, fillies two years old and geldings of all ages shall be allowed 3 lb., and mares three years old and upward shall be allowed 5 lb. before September 1, and 3 lb. afterward.

No money shall be added to any race exclusively for two-year-olds carrying 110 lb. longer than a mile.

In all heat races there shall be an allowance of 5 lb. from the scale of weights.

Light welter weights, 28 lb., added to weight for age, and, in the absence of conditions, shall be the weights for steeplechases and hurdle races.

Heavy welter weights, 40 lb., added to weight for age.

Feather weights, 75 lb..

Overweight, exceeding by more than 2 lb. the weight at which the horse is to be run, shall be announced by the Clerk of the Scales not later than thirty minutes before the time appointed for the race.

A horse shall not be qualified to run in a race with more than 5 lb. overweight.

Horses carrying more than 2 lb., which have not been duly declared, or more than 5 lb. overweight, shall be disqualified.

[NOTE.—These rules first went into force January 1, 1884, consequently for all stakes that closed previous to that date, the weights are those of the old rules, viz., at Covington, Lexington, Louisville, Memphis, Nashville and St. Louis: for two year-olds, 105 lb.; for three year-olds, 110 lb.; with an allowance of 5 lb. to mares in the Spring and 3 lb. in the Autumn, and 3 lb. to geldings at all times. At Chicago, in races exclusively for two-year-olds, the weights are 105 lb., and for three-year-olds, 115 lb., with an allowance of 5 lb. to mares, and 3 lb. to geldings at all times.

Savannah.

The rules of the Savannah Jockey Club provide that all horses' ages shall date from May 1 instead of January, so that, at meetings of the Savannah Jockey Club in January, horses that are three and four-year-olds elsewhere, only rate as two and three-year-olds at Savannah.

California.

The weights of the Pacific Coast Blood Horse Association, of San Francisco, the Capital Club, of Sacramento, the State Agricultural Association, and a majority of the District Agricultural Associations, are the same as those of the American Jockey Club, except, perhaps, the new weights for two-year-olds (115 pounds), and the rule fixing 120 pounds as the top weight in handicaps.

INDEX TO NOMINATIONS.

[Horses are indexed according to the stake number, which appears in heavy figures, and not according to the page on which they are located. This plan has manifest advantages. Not only does it prevent more than one engagement being indicated by the same figure, but the index has been made entirely independent of the printers' "make up" or later changes, thus giving ample time for a careful revision.]

STEEPLECHASES.

No records of steeplechases are given herewith. The distances are uncertain, and as the number of jumps vary on each course, what might be a creditable performance over one course would be comparatively slow elsewhere, without taking into consideration the question of weight carried.

The Fair Ground, Race Track and Zoological Garden are located within thirty minutes ride of the centre of the city, accessible by five street railways, and numerous drives from all parts of the city.

The system of stabling will be the most complete in the country, and those who desire to erect private stables are requested to apply at once, in order that they may receive the benefit of systematic arrangement in all details.

The management of the St. Louis Fair Horse Department will be controlled by the Officers and Directors of the St. Louis Fair, and upon the same broad and liberal basis as that well known Association. The Zoological Garden of this Association is open to the public throughout the year.

The Annual St. Louis Fair is held for one week, commencing on the first Monday in October of each year, and continuing for six days, \$50,000 is annually appropriated for premiums, divided among the Horse, Cattle, Sheep, Swine and Poultry Departments, Agricultural Implements, Machinery and Mechanical Departments, Industrial Arts, Farmers' Products, New and Improved Inventions, and, in fact almost every branch of industry and commerce.
